

HIGHLIGHTS OF THE PROGRAMME

6 institutional visits

Hainan University (HU) - "211 Project"

A national key comprehensive university at a provincial-level in Haikou established since 2007 (merged between former South China University of Tropical Agriculture and Hainan University).

Hainan Normal University (HNNU)

Established since 1949, HNNU is a key provincial university with a long history and distinctive teacher education. It comprises of 21 faculties and 30 research institutions.

Hainan Medical University (HMU)

Renowned as the only medical school in Hainan, the history of HMU began in 1951 with the combination of 2 privately owned Haiqiang Medical Vocational and Medical College of HU. Currently, there are approx. 14,000 students enrolled at HMU.

Hainan Tropical Ocean University (HTOU)

HTOU serves as a cradle of talent cultivation for South Central Hainan and functions as a center for knowledge innovation, social services, and cultural inheritance. HTOU has 2 campuses; one in Sanya and one in Wuzhishan.

Sanya University (SU)

Established in 2005, by 2015, SU was ranked in the top 50 ranking for Chinese university employability. SU consists of 15 teaching colleges and 1 teaching department.

Hainan Foreign Language College of Professional Education

Established in 1947, the College has more than 5000 students annually and offers 8 foreign languages (English, German, French, Japanese, Korean, Russian, Portuguese and Spanish) and 24 majors.

THE PROGRAMME ALSO INCLUDES

A One-Day Seminar on Academic Research & Exchanges

Exclusively designed for our participants, the Seminar on Academic Research & Exchanges will be a platform where academic leaders from both Hainan, China and ASEAN universities meet to explore and build networks for future collaboration.

Cultural Visits

Enjoy a private day trip to Hainans' famous landmarks and cultural attractions. (*TBC)

The 4th SEAMEO RIHED-ACC

**Haikou - Sanya
Hainan**

Study Visit Programme to China

*Invest in your institution,
Join Executives & Officials of
Southeast Asian Higher Education to
collaborate in Hainan today!*

From 23-30 April 2017

Organised by SEAMEO RIHED, the ASEAN-China Centre (ACC) and the Education Department of Hainan Province, P.R. China

This year's programme is designed for executives and officials from higher educational institutions in Southeast Asia that are actively engaged in the following fields:

- Foreign Languages & Culture
- Tropical Agriculture
- Tropical Medicine
- Tourism & Hospitality
- Marine Science

About the 4th China Study Visit

SEAMEO RIHED and the ASEAN-China Centre (ACC) have been exploring opportunities for collaboration and working together to foster regional cooperation in higher education and promote greater interaction and mutual understanding between Chinese and Southeast Asian universities since 2012.

With the success of the three previous Study Visit Program to China, SEAMEO RIHED and ACC with generous support of the Education Department of Hainan Province, are organising the 4th Programme from **23-30 April 2017** to visit **Haikou & Sanya, Hainan**.

Together with other institutional leaders and higher education officials, you will have an extensive opportunity to gain in-depth understanding of the Chinese higher education system and its institutions in Hainan to explore and exchange innovative practices, as well as to seek for networking and future academic collaborations in higher education, especially in the field of Foreign Languages & Culture, Tropical Agriculture, Tropical Medicine, Tourism & Hospitality and Marine Science.

About Hainan Province

Popularly renowned as the province with the greatest air quality in all of China, Hainan is an island province of China situated in the China's southernmost point. The province itself is a Special Economic Zone (SEZ) and has become a magnet for investment and tourism for both local and foreigners.

In terms of education, as of 2012, there were an estimated 19.45 million students in 18 Universities and Colleges in Hainan. In 2012, the total educational investment in Hainan was RMB 21.83 billion, an increase of approximately 25% compared to the previous year. The provincial government has continuously implemented a strategy of developing Hainan through education and technology. Because of its charming and strategic location in a tropical marine climate setting, Hainan Higher Education primarily specializes in Hospitality & Tourism, Tropical Agriculture, Tropical Medicine, and Marine Science.
